

3/24/76

Dear Mark,

Very glad to get your Odio piece. Timing perfect. I have to travel by public transportation tomorrow, which gives me time to read it. If I have anything that may be of consequence I'll write when I can after returning.

My immediate purpose is to let you know it has come and that I appreciate it. Good that you are back in school. Hope it goes well.

Nothing really new here.

The predictable futilities are being ~~pursued~~ pursued by those who have guaranteed they will be no more than futilities and who have no capacity for learning from past errors.

I've remained aloof from the foolishness and self-destruction and have responded to those very few in Congress who have made any requests. I've been able to be helpful to those who really wanted help and I've given the others what they wanted.

Aside from this I've had my own knitting and I've been knitting busily and productively.

We await the 6th circuit's ruling in the Ray appeal and the DC federal appeals court's setting of oral arguments in the Spectro/NAA case.

We are also working on other FOIA cases. Jim and I spent yesterday afternoon with the FBI on one. Stonewallers but despite themselves of some help, I think. We'll see soon enough.

I noticed the forms at the bottom of the copies. Thanks. If you found any new Odio documents I'd appreciate copies. Let me know the cost if there are any and you send them and I'll send you a check.

Until I see if Jim has any further suggestions on Huie-Foreman and the Floyd case I'll let you know. Our thanks/

Best wishes,
